HOW TO PLAY LET IT RIDE PROGRESSIVE

YOUR GUIDE TO PLAYING
CASINO TABLE GAMES

PLAYERS**EDGE**

PLAYING THE GAME

Let It Ride® is a five-card poker game where you compete against a paytable, not against the dealer or other players. If your five-card hand is a pair of 10s or better, you win. Let It Ride also features the optional 3 Card Bonus and progressive wagers.

GETTING STARTED

To play, make three equal bets as indicated on the layout. You may also make the 3 Card Bonus and progressive wagers. You will then receive three cards. The dealer will place two community cards face down in front of the chip tray. These cards will be combined with your three cards to make a five-card poker hand.

DECISION TIME

After looking at your first three cards, you have a choice: remove your first bet or let it stand. The dealer will then reveal the first community card. Again, you have a choice: remove your second bet or let it stand. The dealer will then reveal the second community card. If you have a pair of 10s or better, all bets left in action win according to the paytable. If you have less than a pair of 10s, all bets left in action lose.

3 CARD BONUS

The 3 Card Bonus bet wins if your first three cards contain a pair or better. See posted paytable for odds.

PROGRESSIVE PAYOUTS

The progressive bet qualifies you for payouts from the progressive jackpot. See paytable for odds.

ENVY BONUS

The top hands trigger envy bonuses. See paytable for payouts. You can win multiple envy bonuses in a round, but you cannot receive an envy bonus for your own hand or the dealer's hand.
