PLAYING THE GAME

Richer Spin Roulette is an exciting new side bet that adds a twist to Roulette. Played alongside the traditional game, Richer Spin Roulette features a unique Roulette wheel with an inner cylinder that has gold, silver, blue and purple bonus bet icons. This counter-rotates to the outer number ring allowing the two to spin on independently rotating cylinders.

Game Rules

- There is no limit to the number of side bets placed by an individual player.
- Each side bet can be placed on any number.
- The side bet does not affect the standard Roulette rules.

How To Play

1. To place a Richer Spin Roulette side bet players must pick a single number from 0 to 36 (00 or 000 may also be selected when available).
2. The Richer Spin Roulette Gold and Silver side bets are made on the second set of numbers arranged in a "racetrack" pattern on the layout, and the Purple and Blue side bets are either side of Red and Black on the main layout.
3. Once all bets are placed the dealer then spins the inner Richer Spin Roulette cylinder in the opposite direction to the outer numbers cylinder.
4. When the wheel stops each icon is aligned with a number. The player wins when the ball lands in a pocket that lines up to the icon and that number matches the bet on the Richer Spin Roulette racetrack.
5. If the ball comes to rest in alignment with one of the Gold, Silver, Blue or Purple Bonus icons then the wagers placed on the corresponding side bet Racetrack number will be paid at the odds stated on the table sign or felt.
